Sophisticated and Specialist manufacturers

About

Our Company

We are a leading supplier of artificial plants, flowers and trees in China, and our products are carefully crafted with greater attention to shape, color, texture and fashion trends.

Our artificial plants have been exported to 55 different countries, working for over 120 importers, wholesalers and fashion brands.

PACKAGING AND SHIPPING

Introducing our packaging process

Packaging Vibration Test

Before transportation, we will conduct professional vibration tests on the goods to inspect their transportation resistance or durability uniformity.

Protective Packaging

For mass production, we usually pack the pots with bubble wrap to protect the pots and fix the pot to the bottom of the 5 layers of corrugated box to avoid shaking in transit.

Advanced Trunk Structure

Our artificial tree trunks have advanced detachable structures, effectively saving your transportation costs.
