### Beacon AmiPeak

## Amino Acid+Fulvic Acid+Seaweed Liquid Fertilizer

### Introduction

Beacon AmiPeak is a liquid formulation, containing amino acid, fulvic acid, seaweed, macronutrients and micronutrients. It can be applied for agricultural and horticultural plants, particularly those suffering from environmental growth stresses such as heat, cold, salinity and dryness by soil and foliar application. It can be used alone or mixed with most fertilizers to enhance the performance of fertilizers and reduce input costs.
