

Technical Data Sheet

Beacon Amiadd

Amino Acid Chelated Trace Elements Powder Fertilizer

Introduction

Beacon Amiadd is a totally soluble powder fertilizer for correction of trace elements. It contains 18 amino acids as well as a variety of trace elements like iron, zinc, copper, manganese, boron, etc. It can provide the whole spectrum of micronutrients readily absorbed by plants, and rapidly correct present or hidden deficiency of micronutrients.

Guaranteed Analysis

Amino Acid $\geq 28\%$

TE $\geq 10\%$

Brown Yellow Powder

Features

- 1) Complement microelements that plant need, eliminate the physiological diseases caused by microelements deficiency.
- 2) Promote development and growth of shoots and roots.
- 3) Strengthen anti-stress and anti-disease capability, increase fruit setting ratio, prevent from flower and fruit dropping.
- 4) Improve the quality and appearance of fruits, prolong shelf life.
- 5) Adapt to application in vegetative growth phase and leaf vegetables.

Recommended Application

Foliar spray: diluted by 1: 1200-1500.

Drip irrigation: diluted by 1:600-800.

Precaution

It is allowed to mix with other fertilizers & pesticides. Please make small scale test before wide-spread application.

Packaging

It is available in 500g*24bags/carton, 1kg*12bags/carton, 5kg*4bags/carton, 10kg

Beacon Tech

Technical Data Sheet

bag, 20kg bag or ton bag.

Storage

It must be kept in sealed (air tight) containers at all times for its hygroscopic feature and should be stored out of direct sunlight and preferably in a dry and cool place.
