

Technical Data Sheet

Super Potassium Humate II

Humic Acid Potassium Organic Fertilizer

Introduction

Super potassium humate II is the potassium salt of humic acid extracted from natural high grade leonardite. It contains both nutrient potassium and humic acid and fulvic acid. It can be applied as a soil application through sprinkler or drip irrigation and as a foliar spray with foliar fertilizers for increased uptake. It can also be used for transplanting by making a solution for dipping the roots of plants.

Guaranteed Analysis

Humic Acid $\geq 60\%$

Fulvic Acid $\geq 20\%$

K₂O $\geq 12\%$

TE $\geq 0.2\%$

Black Shiny Powder and Flake

Features

- 1) Stimulate plant growth, promote the crop resistance to drought, coldness and diseases, increase yield and improve quality of plant.
- 2) Dissolve in water easily, anti-hard water, no deposit.
- 3) Increase soil fertility, improve the soil structure.
- 4) Good choice for foliar & drip application.
- 5) Environment-friendly.

Recommended Application

Foliar spray or drip irrigate: 0.5-1Kgs/1000Ltrs water, 3-5Kgs/Ha.

Soil application: 8-10Kgs/Ha apply alone or stir well with normal N,P,K and apply the solution before seeding or between the plant rows.

Fertigation: add it to irrigation water with the ratio of 8Kgs/Ha.

Seeds soaking: 2Kgs for 1 ton seeds.

Precaution

It is allowed to mix with other fertilizers & pesticides except strong acid fertilizers

Beacon Tech

Technical Data Sheet

&pesticides.Please make small scale test before wide-spread application.

Packaging

It is available in 1kg*12bags/carton,5kg*4bags/carton,10kg bag,20kg bag or ton bag.

Storage

In a cool and dry place,keep from direct sunlight or frozen.
